

**RESPONSE:**

Claims 6-12 have been cancelled and rewritten as claims 25-31; the Office's indication that these claims (as well as claims 13-16 which now depend therefrom) are allowable is acknowledged with appreciation.

Withdrawn claims 18-24 have been cancelled thereby obviating any additional claim fees being necessitated by the present filing.

**ARGUMENTS:**

All of the claim rejections (claims 1-5 and 17) are based primarily on *Mathur et al.* '874.

(57) <b>ABSTRACT</b> The invention relates to an all-welded plate heat exchanger comprised of a plurality of plates welded together to form casockets that are stacked one upon the other so as to provide primary and secondary alternating channels through which fluids are adapted to flow for exchanging heat. The primary channels provided within the casockets connect at opposite ends with inlet and outlet openings. The casockets are welded along two opposing sides via resistance seam welding. Haffle clips are fastened between the casockets to partially close off the sides of the secondary channels provided between the casockets. Two inlet headers, two outlet headers, a top cover member and a bottom cover member enclose the stacked casockets.	
<b>19 Claims, 7 Drawing Sheets</b>	

As may be appreciated above, *Mathur et al.* '874 has two possible 102(e) effective dates: 29 June 2001 for the subject matter disclosed in Provisional Patent Application 60/302,219 and 05 December 2001 for any additional subject matter disclosed in the Utility Application filing.

Applicant has attempted to investigate these issues, but the two applications are NOT available in an image file wrapper from the PTO. Therefore, should the Office reiterate these *Mathur et al.* '874-based rejections, it is respectfully requested that copies of the two relevant applications be supplied in the next official action.

However, Applicants enjoy a claimed (and now perfected) priority date of 27 March 2001 (Swedish Priority Application 0101085-9) via the accompanying (Annex "A") English translation of said priority application. This priority date predates both possible effective dates of *Mathur et al.* '874 thereby removing it as a legal reference under ALL sections of 35 USC 102. Therefore, withdrawal of the *Mathur et al.* '874-based rejections is respectfully requested.
